

e3 PRO Fuel Saver

ABOUT AEDC

Alternative Energy Development Corporation (AEDC) is proud to provide global solutions by developing fuel conservation technologies that deliver immediate practical solutions. Our team has been working diligently to create and promote dependable fuel efficiency products for operators of commercial and industrial vehicles, for the millions of passenger vehicles, fleets, transporters and emergency response vehicles on our highways, and city streets around the world.

AEDC is pleased to introduce its newest fuel saver addition...the e3 Pro Fuel Saver.

Introducing the e3 Pro Fuel Saver

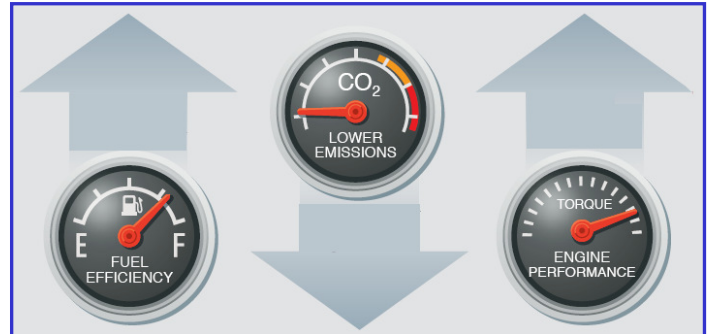

The e3 Solution

economic | eco-friendly | efficient

AEDC's e3 Fuel Saving technology has been tested and proven to provide significant benefits.

e3 Pro Fuel Savers

- ✓ Save Amount Spent on Gas
- ✓ Increases Gas Mileage up to 50%
- ✓ Lowers Harmful Emissions
- ✓ Improves Vehicle Performance

E3 PRO FUEL SAVER BENEFITS

e3 Pro Fuel Saver is the Answer

- Cost Effective (pays for itself quickly)
- Tested and Proven Results
- Made in the USA
- Powered by Advanced Vapor Technology
- Maximizes Fuel Efficiency
- Does Not Void Vehicle Warranty
- Meets or Exceeds all OEM Specifications

e3 Pro Installed

FREQUENTLY ASKED QUESTIONS

What type of vehicle can I use the e3 Fuel Saver on?

Works on gasoline powered vehicles whether they are fuel injected or carbureted. This includes cars, trucks, vans, RVs, race cars, hybrids and other performance vehicles.

What kind of savings can I expect?

Through independent testing we have found fuel savings up to 50%. Results may vary depending on your vehicle, driving style, condition of the vehicle and environmental conditions.

In addition to cost savings and increased mileage, are there other benefits?

Yes, since your engine is now running more efficiently, you may experience a smoother idle, quicker throttle response and increased performance.

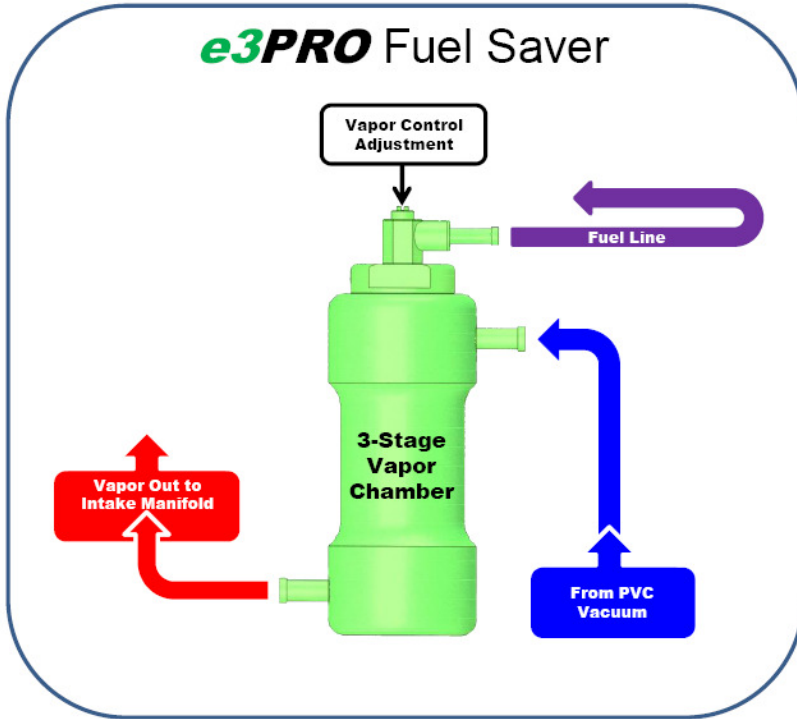

I drive a diesel. What e3 products are available for my vehicle?

We are currently working on products for diesel vehicles. Please check back often for details.

Where can I purchase e3 Pro Fuel Savers?

Available through our partner network with certified installers.

HOW IT WORKS

- The **e3 Pro Fuel Saver** utilizes a 3-stage vapor technology that converts raw fuel to vapor for gasoline powered engines.
- The **e3 Pro Fuel Saver** receives fuel in a raw fluid from the fuel line, vaporizes the fuel and feeds the vaporized fuel into the air mixture within the intake manifold.
- The vaporized fuel is routed to the engine cylinder for combustion.
- A sensor on the exhaust detects the additional fuel from air fuel ratio. The engine controller cuts fuel supplied by fuel injectors (because of the vaporized fuel supplied by the intake manifold) to maintain the factory air-fuel mixture ratio.
- Since fuel injectors do not vaporize the fuel, the more fuel that can be supplied by **e3 Pro Fuel Saver**, the higher the combustion efficiency and greater the fuel economy.

SAVINGS POTENTIAL

United States Gasoline Consumption vs. Potential Reduction in Consumption and Cost Savings

	Daily Gasoline Consumption (gallons)*	With the e3 Fuel Saver Installed				
		Daily % Reduction in Fuel Consumption (by gallons) and Cost Savings**				
Daily Average Fuel Consumption (gallons)*	378,000,000	5%	10%	15%	20%	25%
Total Daily Fuel Consumption Savings (gallons)		18,900,000	37,800,000	56,700,000	75,600,000	94,500,000
Total Daily Savings (\$'s)		\$ 52,920,000	\$ 105,840,000	\$ 158,760,000	\$ 211,680,000	\$ 264,600,000
	Annual Gasoline Consumption (gallons)*	Annual % Reduction in Fuel Consumption (by gallons) and \$ Cost Savings**				
Annual Fuel Consumption (gallons)*	137,800,000,000	5%	10%	15%	20%	25%
Total Annual Fuel Consumption Savings (gallons)		6,890,000,000	13,780,000,000	20,670,000,000	27,560,000,000	34,450,000,000
Total Annual Savings (\$'s)		\$ 19,292,000,000	\$ 38,584,000,000	\$ 57,876,000,000	\$ 77,168,000,000	\$ 96,460,000,000
